## THE RESIDENCE

The residency is located at **MUHBA Vil·la Joana**, An emblematic building surrounded by vegetation in the Collserola hills. The residence, distanced from the city, and thus without nearby stores or supermarkets, is well-connected to the Barcelona city centre by train (Ferrocarrils de la Generalitat, Baixador de Vallvidrera stop). The path from the residence to the train station (10 minutes by foot) contains stairs and is thus not accessible for people with reduced mobility.

Each writer will have an individual room with bathroom and desk for working, as well as a balcony with views of the Collserola hills. There is also a common space with a fully equipped kitchen where the writers can prepare their meals. During the residency, the selected writers will live there at the same time. Unfortunately, the residence cannot offer the possibility for residents to be accompanied by their partner or children. All rooms are for individual use, so it is important that applicants take this into account when submitting their application.

During the residency, activities will be organized in the city of Barcelona with the participation of resident writers who will contribute to cultural interaction and exchange. The residents are expected to take part in all the activities.

The writers will be in contact with a person from PEN Català who will welcome them the first day and check in with them during their stay but will not live with them at the residence. Therefore, the writers must be autonomous when it comes to planning and managing their stay, as well as buying and cooking their own meals.
